

OM PANDEY

Aspiring AI / GenAI Engineer | Raipur, India

+91 7646964673 | ompandey1811@gmail.com | github.com/OMPANDEY-ops | linkedin.com/in/om-pandey-789756387

SUMMARY

Computer Science (Cybersecurity) undergraduate with hands-on experience building full-stack web applications (Next.js, React, Node.js) and applied NLP projects using Python and transformer-based models. Comfortable across the stack from UI to backend APIs, with a working foundation in machine learning fundamentals and a strong interest in moving into GenAI / LLM application engineering. Currently building toward production experience with LLM APIs, retrieval-based systems, and agentic workflows.

CORE SKILLS

Languages: Python, Java, JavaScript, C, C++

AI / ML: PyTorch, NLP (BERT/Transformer models), Reinforcement Learning fundamentals

Web & Backend: Next.js, React.js, Node.js, REST APIs, Flask, Streamlit

Cybersecurity: Linux, Nmap, Burp Suite, VAPT, Solidity (basics)

Tools & Platforms: Git, GitHub, Docker, Figma, Tableau, Replit, Claude

Coursework: Data Structures & Algorithms, Cryptography and Cyber Defence, Artificial Intelligence

EDUCATION

Siksha 'O' Anusandhan Deemed to be University

B.Tech, Computer Science Engineering (Cybersecurity) | CGPA 7.89

2024 – 2028

Bhubaneswar, India

Kendriya Vidyalaya B.M.Y, Bhilai

CBSE Class XII | 78.2%

2023 – 2024

Bhilai, India

Kendriya Vidyalaya B.M.Y, Bhilai

CBSE Class X | 86%

2021 – 2022

Bhilai, India

PROJECTS

CyberVerse 2.0 — AI-Native Cybersecurity Operations Dashboard

github.com/OMPANDEY-ops/Cyberverse

React 18, TypeScript, Vite, Tailwind CSS, WebGL/Canvas 3D, Python FastAPI, WebSockets, JWT, Docker, GitHub Actions

- Built full-stack security-operations web app with interactive 3D "digital twin" visualization of enterprise infrastructure nodes and real-time packet-flow overlays.
- Designed multi-tab investigation workspace and evidence-upload pipeline parsing EVTX, PCAP, JSON, LOG, CSV files with SHA-256 hashing.
- Implemented Python FastAPI backend with OpenAPI docs, JWT-based authentication, and WebSocket telemetry channel (/ws/telemetry).
- Added minimalist chat-style assistant panel ("Sentinel") as interface layer for future AI-assisted triage; containerized with Docker CI/CD.

AI-Summarizer

github.com/OMPANDEY-ops/AI-Summarizer

Python, Streamlit, Hugging Face Transformers (DistilBART), PyPDF2, python-docx

- Built Streamlit app that summarizes pasted notes or uploaded PDF/Word documents using transformer-based DistilBART model.
- Added document text extraction (PyPDF2 for PDFs, python-docx for Word files) and post-processed model output into structured summaries.

Next.js AI Chatbot (Vercel Chat SDK template)

github.com/OMPANDEY-ops/nextjs-ai-chatbot

Next.js App Router, Vercel AI SDK, xAI/OpenAI model routing, Auth.js, Neon Postgres

- Deployed and configured Vercel AI Chatbot starter (Chat SDK), wiring model provider routing through unified API, Auth.js, and Neon Postgres.
- Explored AI SDK tool-calling and generative-UI hooks for custom chat features.

Frontend Clone Suite — Spotify, Netflix & Instagram-style Apps (learning projects)

Next.js, React, TypeScript, Tailwind CSS, Framer Motion

- Built three UI-focused clone applications (music streaming, video-streaming landing page, and social feed) back-to-back to practice component architecture.
- Spotify Clone: full audio-player engine using HTML5 Audio API & Framer Motion. CineStream: Netflix-style landing page. InstaPulse: Instagram-style feed.

CERTIFICATIONS & EXTRA-CURRICULARS

- IBM SkillsBuild — Getting Started with Artificial Intelligence (Mar 2026)
- Deloitte Job Simulations — Technology, Data Analytics & Cybersecurity (Forage, Jul 2025)
- NCC "A" Certificate — NCC GP HQ, Raipur (Jan 2021)
- Core Member, SOA Official CodingNinjas 10X on Campus — Mentored 500+ students in competitive programming.
- Media Head, SOA Literary Club — Public speaker, event management, and content writer.
